

# **OMS Science Fair Club**

**Introductory Meeting:** Wednesday, October 26<sup>th</sup>

2:30 – 3:15PM in Room 311

**All interested students are encouraged to attend.**  
More information can be found outside Room 311

# Some Basic Information...

- You will develop a science fair project on any science, engineering, or technology/computer science topic that interests you. You may work alone or on a team of two or three students.
- Projects must use the science inquiry or engineering design process. (You are not simply researching a topic.)
- The **top ten** projects from Oak will be entered in the Worcester Regional Science and Engineering Fair at WPI in May. You will compete against students all over central Massachusetts.
- Students who place at the regional fair will advance to the Massachusetts State Science and Engineering Fair at Worcester Technical High School in June.
- You also have the option to enter your project into the international Google Science Fair and compete against students all over the world!

## Questions??

***Stop inside my classroom before/after school or send me an email:***
